DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Saito et al, which has a priority document filed 10/13/99 (No. 11-291270). This was described and published prior to the applicant's invention. The document to Saito et al discloses the back-pressure adjusting mechanism and the gas circulating means., as well as, first and second exhaust mechanisms.

Conclusion

The other prior art submitted on the PTO-1449 is made of record and not relied upon is considered pertinent to applicant's disclosure.
